Session 188: Many energies of the self

Summary: In bringing you the understanding of the inner workings of yourself, you have been shown that there are also the energies within yourself. Now, they're in a fragmented condition, to project again on to the inner world, that there needs to be something done to fix the world as when you project outside yourself and feel that something needs to be done that you need to correct the outside forces to make a peaceful world. This is where we run into the difficulties of explaining to you without getting into the judgement of good and bad.
